Tamil Nadu

Education

Bachelor of Technology, Computer Science Engineering, SRM Institute of Science and Technology 2024 – 2028

CGPA: 9.5 / 10

Technical Skills

- **Languages:** C, C++, Python, JavaScript, TypeScript, Java
- **Frontend:** React.js, HTML5, CSS3, Bootstrap, Responsive UI Design
- **Backend:** Node.js, Firebase, Django
- **Tools & Platforms:** Git, Figma, Firebase, Ren'Py
- **Technical Areas:** Data Structures & Algorithms, Competitive Programming, Generative AI, Full-Stack Development, UI/UX Design

Experience

President

Jul 2026 – Present

GeeksforGeeks SRM Ramapuram Chapter

Chennai

- Lead the student chapter by planning technical initiatives, managing core teams, and driving community growth.
- Organize coding contests, workshops, recruitment drives, and flagship technical events.
- Mentor members in competitive programming and oversee chapter operations.

Designer & Competitive Programmer

Aug 2024 – Jul 2026

GeeksforGeeks SRM Ramapuram Chapter

Chennai

- Solved 500+ coding problems across LeetCode, CodeChef, and GeeksforGeeks using C, C++, and Python.
- Participated in 43 competitive programming contests and achieved a CodeChef rating of 1164.
- Earned badges for solving 250+ problems and participating in 25+ CodeChef contests.
- Designed promotional materials and coordinated technical events for the student chapter.

Graphic Designer

Aug 2025 – Jun 2026

Literary Club, SRMIST Ramapuram

Chennai

- Designed posters, branding assets, and promotional graphics for literary competitions and campus events.
- Maintained a consistent visual identity across digital and print media.
- Collaborated with organizing teams to create engaging publicity material for club initiatives.

Projects

Questoria – React.js, TypeScript, Firebase, Node.js, Generative AI

- Built a full-stack gamified learning platform that converts traditional DSA practice into 10+ interactive adventure-style challenges.
- Engineered algorithm-based mini-games including Bubble Sort, Maze Traversal, and N-Queens to reinforce core problem-solving concepts.

- Designed a fully responsive, mobile-first interface with immersive animations and a cohesive fantasy-inspired design system.
- Implemented authentication, progress tracking, and AI-assisted challenge generation to deliver personalized learning experiences.

DuelCom – React.js, Node.js, Firebase, Generative AI

- Developed a real-time 1v1 competitive coding platform with secure authentication and persistent user profiles.
- Implemented automated code evaluation using custom test cases, reducing manual assessment effort by 100%.
- Integrated AI-powered problem generation to create personalized coding challenges based on user skill levels.
- Designed an intuitive interface supporting seamless challenge creation, matchmaking, and duel scheduling.

Care for Pet – PyGame

- Developed an interactive virtual pet application with health, hunger, and activity management mechanics.
- Designed an intuitive mobile interface to improve accessibility and user engagement.

Achievements

- Solved 500+ coding problems across LeetCode, CodeChef, and GeeksforGeeks.
- Achieved CodeChef rating of 1200+ across 50+ contests.
- Earned a 50-day coding streak badge on LeetCode.
- Maintained 200+ active coding days.
- Achieved O Grade (Outstanding) in Japanese Language Studies at SRMIST.
- Appointed as Campus Mantri of GeeksforGeeks.

Certifications

- Database Management Systems – NPTEL, IIT Kharagpur
- Django Web Development – Udemy
- Full Stack Development Bootcamp – Udemy
- Figma UI/UX Essentials – Udemy
- Pygame Development – freeCodeCamp
- Introduction to C++ – Simplilearn

Languages

- English (Fluent)
- Tamil (Native)
- Hindi (Fluent)
- Kannada (Fluent)

- Japanese (Beginner)
