SUMMARY

Second-year Bachelor's degree student in Computer Science at SRMIST with a **9.3 GPA**, strong foundation in **C, C++, and Python**, and **500+ problems solved** across competitive programming platforms. Experienced in building full-stack and AI-integrated web applications, analysing complex problems, and developing efficient, scalable solutions. Demonstrates strong problem-solving ability, consistency, and adaptability through active participation in coding contests and real-world projects. Effective in collaborative team environments, seeking opportunities to contribute to impactful software development roles.

EDUCATION

SRM Institute of Science and Technology, Ramapuram <i>B.Tech in Computer Science and Engineering</i> – GPA: 9.3 / 10.0	Chennai, Tamil Nadu Aug 2024 – May 2028
Sri Chaitanya Techno School <i>CBSE – Class XII (12th Grade)</i> – Percentage: 86%	Seshadripuram, Bengaluru Mar 2024
Sri Chaitanya Techno School <i>CBSE – Class X (10th Grade)</i> – Percentage: 91%	Seshadripuram, Bengaluru Mar 2022

EXPERIENCE

GeeksforGeeks – SRM Ramapuram Chapter <i>Designer & Competitive Programmer</i> – Solved 500+ problems in C, C++, and Python across LeetCode, CodeChef, and GeeksforGeeks — consistently analysed problem constraints, evaluated multiple approaches, and implemented optimal solutions under time pressure. – Participated in 43 competitive programming contests on CodeChef, achieving a rating of 1164 ; earned badges for 250 problems solved and 25 contests on CodeChef, and a 50-day streak on LeetCode. – Maintained 179 active coding days with an 18-day maximum streak, demonstrating consistent self-driven learning and discipline. – Served as Junior Coordinator for technical events – managed logistics, led a volunteer team, handled participant communication, and designed all event materials, contributing to a productive and collaborative chapter environment.	Aug 2024 – Present
Literary Club, SRMIST Ramapuram <i>Graphic Designer</i> – Designed posters, branding assets, and promotional graphics for literary competitions and campus events. – Maintained consistent visual identity across digital platforms for all club initiatives.	Aug 2025 – Present

PROJECTS

DuelCom <i>React.js, Firebase, Node.js, JavaScript</i> Live Demo GitHub – Applied CS fundamentals to build a full-stack real-time coding duel platform using React.js, Node.js , and Firebase — translating real-world competitive programming needs into a scalable software solution. – Developed automated scripts for test-case evaluation and duel scheduling, reducing manual intervention and enabling seamless challenge execution at scale. – Integrated a Generative AI problem generator to analyse user skill levels and produce tailored coding challenges — applying data-driven decision making to improve user experience. – Designed end-to-end UI/UX in Figma and led the full implementation cycle independently, from wireframe to deployed product.	
Environment Awareness Game <i>Ren'Py, Python</i> – Developed a visual novel-style educational game with branching story paths and custom UI to promote environmental awareness.	
Care for Pet <i>MIT App Inventor</i> – Built an interactive mobile simulation game with pet-care mechanics and an intuitive UI designed for younger audiences.	
Quiz Game <i>Python</i> – Created a command-line quiz application supporting multiple rounds, dynamic scoring, and interactive gameplay logic.	

TECHNICAL SKILLS

Languages: C, C++, Python, JavaScript, TypeScript, Basic Java

Frontend Development: React.js, HTML5, CSS3, Bootstrap, Responsive UI Design

UI/UX & Design: Figma (Wireframing, Prototyping), Graphic Design, Video Editing

Backend & Tools: Node.js, Firebase, Django (*in progress*), Git

Data Structures & Algorithms: Arrays, Hashing, Strings, Recursion, **Dynamic Programming**, Backtracking – 500+ problems solved

Other: Generative AI, Competitive Programming

ACHIEVEMENTS & CERTIFICATIONS

CodeChef: Rating of **1164** across 43 contests, 250 problems solved, 25 contests participated

LeetCode: 50-day continuous coding streak badge

Certifications:

Figma UI/UX Essentials – Udemy

Full Stack Development Bootcamp – Udemy

Pygame Development – freeCodeCamp

Introduction to C++ – Simplilearn

Django Web Development (*in progress*) – Udemy

LANGUAGES & EXTRACURRICULAR

Japanese: Completed Japanese language course at SRMIST – achieved **O Grade** (Outstanding) in Semester II

Spoken Languages: English (Fluent), Tamil (Native), Hindi (Fluent), Kannada (Fluent)

Interests: Competitive Programming, UI/UX Design, Visual Storytelling, Game Development
